

### Statement of Purpose

I am Mr. Arun Giri son of Mr. Kraipalal Giri and Mrs. Shyama Giri a permanent resident of Dang Ghorahi-10, Milan Chowk Nepal and temporary resident of Subidha Nagar Kathmandu, Nepal.

I have completed school leaving certificate examination from Sagarmatha Awasiya Ma vi JAwalakhel with 65.63% score in 2009 and I have completed the two years (+2) Management in the examination of Higher Secondary Education Board in 2011 with the second division securing 47.30% and I have recently studying my bachelor in Bschmctt in Padma Shree College in Third Semester.

From my early childhood till today, my most remarkable characteristics have been my curiosity to learn new topics. My keen interest for learning new ideas, when combined with my inner desire to reach a degree of excellence in every piece of work I perform enabled me to acquire significant knowledge on various aspects of nature and technology, as well as leading me through a successful educational career. Personal satisfaction also plays a key role in my career decision. I enjoy acquiring new skills and information, which help me to adapt to the fast changing world, as well as pique my interest in innovation. In addition, a career with open prospects would give me constant incentive to improve myself and to gain more knowledge.

After achieving good results in SLC (School Leaving Certificate) I have started my career in management faculty in +2 level in Deepshikha Awasiya H S School so that I could continue my study career in management after in Padma Shree College affiliated to the Punjab Technical University to proceed my studying career in bachelor in Hotel Management and recently Studying in Third Semester.

As far as I know about **Aleksandras Stulginskis University (ASU)** is an International recognized European level University for studies in unlimited fields. It has an excellence of academic, organization, scientific, infrastructure and other many sectors. The most valuable and inspiring thing of ASU for me is the degree from ASU is accepted all over the world. The degree of ASU also plays a great role to me to achieve the necessary knowledge and acquire skills to my

management field and many more. Thus I believe studying in ASU in Lithuania will help to get the knowledge and skills and ideas in order for me to work in the management sectors in my country Nepal and provide the effortful service to my nation.

From my life career I am always keen to improve my career in the management field which is BSCHMCTT (hotel management). For this I am always working hard to gain my goal. Thus to achieve all the basic requirement and skills needed for the management course, achieving a degree in this course would play the most vital role to built up my career and this eager me forward to the best BHM course successfully.

I always want to study in a peaceful environment where all the facilities and technologies are there for my practical service and knowledge. The place I am staying does not evolve all the required equipments and facilities required to the Hotel Management course. And the polluted environment of dust and noise and the most disturbing fact is the traffic conjunction that has been blocking my way to achieve my goals and making my career .Therefore ,I m not getting sufficient help from any other universities in Nepal.

The thing I loved most about ASU is the natural and peaceful environment and the required facilities and the new technology required to a hardworking student. I have also cheeked the website of ASU in Lithuania from where I came to know it's the University which provides the true sense and the true inspiration. Lithuania is the second greenest country with peaceful environment where the students can concentrate on their study properly . Also living an independent to handle my academic and personal life as international student I believe, it will teach me time and resource management to handle my academic and personal life and improve myself in various activities so that I can adopt a new lifestyle an enjoy my visit and stay in Lithuania.

Therefore, with the hope I am applying temporary visa. I will never want to miss the golden opportunity of ASU to complete my course in management .Hoping that you will help me make my career and future by giving me the visa. SO it will be a great owner if my visa is granted.

Thank You,

Arun Giri
